DY★MARK INC. INDUSTRIES

ACQUISITION ANNOUNCEMENT

Subject: Exciting News: DyMark Industries Inc. Expands Capabilities with Calgary Acquisition

Dear Valued Client,

We are thrilled to officially announce that effective October 1, 2026 **DyMark Industries Inc.** has completed the acquisition of Metal-Fab Industries, a premier welding and fabrication provider based in **Calgary, Alberta**.

This acquisition marks an exciting milestone in our growth strategy. By combining Metal-Fab's deep regional expertise and advanced technical capabilities with our own established resources, we are significantly expanding our geographic reach and service offerings across Western Canada.

What this means for you

- **Expanded Services:** You now have direct access to a broader suite of custom fabrication and installation services.
- **Increased Capacity:** The addition of the Calgary facility increases our production capacity, allowing us to turn around your complex and large-scale projects even faster.
- **Geographic Proximity:** If you operate or have projects in Alberta, our new local presence ensures quicker mobilization and reduced transit logistics.

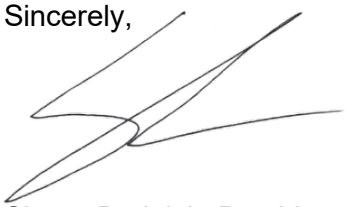

Business as Usual

While our capabilities are growing, our commitment to you remains unchanged. Your current points of contact, account managers, and active contracts remain exactly the same. The day-to-day operations at both companies will continue seamlessly, and you can expect the same high standards of quality, safety, and customer service you have always relied on.

We are deeply grateful for your continued partnership and look forward to bringing you even greater value through this expansion.

If you have any questions regarding this announcement or would like to learn more about how our new Calgary team can support your upcoming projects, please do not hesitate to reach out to myself or one of our project managers.

Sincerely,

Shane Budnick, President
DyMark Industries Inc.
