

## Onsite Welder

Full-time Position • Immediate Start

Career Opportunity

Established in 2002, DyMark Industries is a diversified corporation specializing in the design, manufacture, finishing and erection of structural steel, miscellaneous metals and custom fabrication projects. We proudly serve the mining, construction, agriculture, government and weighing technology sectors.

At DyMark Industries, our guiding principles of quality, passion, respect, safety, growth and innovation play an important role in the work that we do and the clients we work with. We actively search for staff that support and enhance these principles to assist in moving the corporation forward. We thrive on tackling complex large-scale projects that will leave you with a sense of accomplishment when the work is done.

### Onsite Welder

#### Position Overview

DyMark Industries is currently seeking highly motivated team players for the position of Onsite Welder. Onsite Welders are responsible for providing quality metal fabrication and structural steel erection for projects in Saskatoon & surrounding area as well as various cities throughout the Prairie Provinces. These positions will be required to work at heights to erect buildings, as well as operate various types of aerial devices and reach forklifts. Travel may also be required.

#### Required Education, Skills & Abilities

The successful candidate(s) will possess post-secondary education for Pre-Employment Welding along with 2-6 years related experience or an equivalent combination of education and experience. Transferable CWB-SMAW tickets would be beneficial. Previous WHMIS, knowledge of onsite crane operation and other lifting device experience would be assets. The successful candidate(s) must also possess strong organizational, communication and interpersonal skills. A valid driver's licence is also required.

Please note that DyMark Industries is engaged in work activities defined by *OH and S Regulations* as high hazard work. Due to the safety hazards associated with steel fabrication, building erection, and working at construction and mine sites, safety is a bona fide occupational requirement and DyMark Industries has a zero tolerance policy for any employee that reports to work impaired on any DyMark worksite. All employees must arrive to work fit for duty.

#### Why Work with Us

DyMark Industries is committed to an inclusive and diverse workforce. We encourage our employees to contribute to our company's continued growth and corporate sustainability through diverse ideas and backgrounds.

Our company offers competitive wages in a challenging work environment with opportunities for advancement, a comprehensive benefit plan, staff rewards and recognition, discretionary bonuses as well as staff appreciation events. We encourage employee growth through education and training programs. DyMark employees also receive 5 paid sick days per year and an additional paid statutory holiday observed at Christmas.

**We thank all applicants for their interest; however, only those under consideration will be contacted for an interview.**
